this document is part of an integrated file. If separated from the file it must be subjected to individual systematic review.

The existing plant is to be located at the center, and the towns in each village within a 10-mile radius of the center.

[illegible]

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the work.

3. The third step is to develop a plan or strategy to address the problem. This involves identifying the resources needed, the tasks to be completed, and the timeline for the project.

4. After the plan is developed, the next step is to implement the plan. This involves carrying out the tasks and activities that have been identified in the plan.

5. Finally, the last step is to evaluate the results of the project. This involves assessing the progress made, the quality of the work, and the overall impact of the project.

ALL THE MEMBERS OF THE ARMY, NAVY AND AIR FORCE OF THE UNITED STATES ARE REQUESTED TO SIGN THE FOLLOWING STATEMENT:

1. The first step in the process of the development of the new curriculum is the identification of the needs of the students. This is done by the teachers and the curriculum developers.
